

Patrice Brown

McComb, MS | patricelachellebrown@gmail.com | [LinkedIn](#) | [Portfolio](#)

Pursuing a Master of Science in Cybersecurity with a specialization in Security Operations and AI Trust & Safety; leveraging hands-on expertise in incident response and model alignment to fortify organizational resilience against emerging adversarial threats. Pursuing the Google Cybersecurity Professional Certificate via Merit America, specializing in Python, Linux, SQL, and incident response. Expert in AI Model Training (RLHF) and AI Security frameworks (OWASP LLM Top 10, NIST AI RMF). Leverages behavioral analysis for adversarial testing and model alignment to mitigate emerging threats in security operations.

EDUCATION, CERTIFICATES, & CERTIFICATIONS

Master of Science in Cybersecurity • Southern New Hampshire University

In Progress

- Acquiring advanced technical expertise in cybersecurity management, network defense, and digital forensic investigations to secure enterprise-level infrastructure.
- Analyzing complex threat intelligence frameworks and mitigation strategies to fortify organizational data assets against emerging adversarial tactics.
- Executing specialized research into the legal, ethical, and regulatory compliance standards governing global information security operations.

Google Cybersecurity Professional Certificate • Merit America

06/2026

- Mastered a holistic security perspective focused on privacy and organizational resilience through systematic identification and mitigation of critical vulnerabilities and risks.
- Developed hands-on proficiency in Linux, SQL, and Python while utilizing SIEM platforms, IDS, and network protocol analyzers for proactive security monitoring.
- Demonstrated technical aptitude through simulated security audits, incident response workflows, and the documentation of incident handler journals in real-world scenarios.

Google AI Professional Certificate • Google

04/2026

- Mastered structured prompting and iterative refinement techniques to automate complex workflows and high-volume communication tasks, significantly reducing manual processing time.
- Leveraged Gemini and NotebookLM to synthesize multi-modal data sources and perform rapid trend analysis, transforming raw screenshots and unstructured datasets into actionable spreadsheets and visual reports.

AWS AI Practitioner • Amazon Web Services

04/2026

- Engineered sophisticated conversational systems using Amazon Bedrock and Retrieval-Augmented Generation (RAG) to maintain model grounding within proprietary corporate data sets.
- Operationalized secure AI governance through the implementation of AWS Guardrails and policy-compliant agents, mitigating legal risks and bias across the machine learning development lifecycle.

Bachelor of Science in Psychology • University of Memphis

12/2006

- Specialized coursework in Behavioral Analysis, Research Methodologies, and Statistical Analysis to interpret human behavior within complex systems.
- Leveraged behavioral analysis to enhance human judgment and cross-functional communication within technical and administrative environments.

RELEVANT SKILLS & EXPERTISE

Tools/Languages: Tools/Languages: Linux, Windows, SQL (BigQuery, MySQL), Amazon Bedrock, Retrieval-Augmented Generation (RAG), Gemini, NotebookLM, Splunk, Wireshark, Tcpdump, Suricata, Python, Excel (Pivot Tables/VLOOKUP), Git/GitHub, AWS Guardrails, CRM, Google Workspace

Security Practices: Security Practices: Information Security, AI Governance, Responsible AI, ML Development Lifecycle, Vulnerability Assessment, Threat Analysis, Log Analysis, Structured Prompting, Security Frameworks and Controls, Risk Identification and Mitigation, Compliance Auditing

AI Security Frameworks: OWASP Top 10 for LLMs, NIST AI RMF, MITRE ATLAS

Vulnerabilities: Prompt Injection, Data Poisoning, Model Inversion, Sensitive Information Disclosure

Testing: Adversarial Prompting, Red Teaming, Jailbreak Testing

Software Platforms: Google Workspace, Slack, Educational Testing Service ONE Platform, CRM, Remote Collaboration Tools, Learning Management Systems

Networking & Protocols: TCP/IP, DNS, DHCP, HTTP/HTTPS, ICMP, Advanced Packet Dissection and Traffic Analysis

Strengths: Problem-Solving, Collaboration, Attention to Detail, Calmness Under Pressure, Critical Thinking, Team Leadership, Adaptability, Communication, Analytical Skills, Social Engineering Mitigation, User Behavior Analytics (UBA)

CYBERSECURITY PROJECTS

- **TryHackMe Rooms:** Utilized interactive, gamified virtual environment to enhance practical knowledge and hands-on skills:
- **Linux Fundamentals (1, 2, & 3)** and **Linux Strength Training** - Navigated directories and files, adjusted permissions, analyzed logs, explored common utilities
- **Intro to Logs** and **Log Analysis** - Identified log types, located logs, employed regular expressions (RegEx), and utilized command line and CyberChef for effective log analysis
- **Wireshark Basics** and **Wireshark 101** - Gained proficiency in packet dissection, navigation, and filtering techniques; analyzed ARP, ICMP, TCP, DNS, HTTP, and HTTPS traffic for network troubleshooting and security analysis
- **Windows Fundamentals (1, 2, & 3)** and **Windows Forensics (1 & 2)** - Acquired fundamental understanding of Windows, including file systems, user account control (UAC), control panel, system configuration, security, firewall, registry, and FAT/NTFS file systems; developed skills in accessing hives, utilizing registry explorer, and recovering files
- **Splunk Basics, Incident Handling with Splunk,** and **Splunk (2 & 3)** - Developed skills in navigating Splunk; conducting incident handling using Splunk; participated in the Boss of the SOC investigation for security analysis

PROFESSIONAL EXPERIENCE

AI Content Evaluator • *Outlier, Remote*

05/2024 - Present

- Executed specialized adversarial testing on large language models to identify prompt injection vulnerabilities and sensitive data disclosure risks; detected intricate injection patterns bypassing standard filters to facilitate the deployment of advanced safety guardrails to bolster model security.
- Delivered critical Human-in-the-Loop (HITL) feedback through RLHF to strengthen model safety guardrails and mitigate prohibited content generation, ensuring 100% alignment with established trust and safety frameworks.
- Conducted specialized content safety evaluations for machine learning models by assessing accuracy and tone, ensuring 100% adherence to strict annotation guidelines.
- Maintained 90% consistency in peer reviews by providing detailed feedback to teammates, which enhanced overall model performance and training data quality.

Scoring Lead/Rater • *Educational Testing Service(ETS), Remote*

11/2014 - Present

- Directed remote teams of 18 evaluators in high-volume data operations, ensuring strict adherence to ETS scoring rubrics and maintaining 100% operational alignment with established quality benchmarks.
- Maintained over 90% data integrity across 15,000 annual records by implementing rigorous validation protocols and quality control measures for complex multilingual datasets.
- Executed quality improvement processes that reduced data discrepancies by 15% through daily monitoring of reliability metrics and performing systematic audits of team outputs.
- Performed complex evaluations of multilingual data to ensure proficiency alignment with ETS benchmarks; leveraged behavioral analysis to maintain consistency across subjective datasets.

Customer Care Advocate • *AssuranceIQ, Remote(Seasonal)*

08/2023 - 02/2024

- Audited Medicare Advantage enrollments for 100% compliance with healthcare regulations and audit standards.
- Maintained high-volume data integrity and records to support strict regulatory audit requirements.
- Educated beneficiaries on complex plan features and carrier differences to ensure informed decision-making and reduce post-enrollment grievances.

Healthcare Consultant / Licensed Insurance Agent • *Alight Solutions, Remote(Seasonal)*

06/2022 - 02/2023

- Verified benefit data accuracy for Medicare enrollments, ensuring total adherence to regulatory coverage standards.
- Resolved network and cost estimate discrepancies within compliance-driven timelines.
- Leveraged CRM software and multi-channel communication tools to manage a high-volume pipeline while maintaining superior quality assurance scores.

PROFESSIONAL LICENSES

Life, Health & Accident Producer License | Mississippi Insurance Department

- Maintains active licensure and full compliance with state regulatory standards.

Property & Casualty Producer License | Mississippi Insurance Department

- Proficient in managing complex insurance risk and coverage protocols.
